TechTop is a very good event to bring the youngster up with the innovative ideas.. Motivation given by the TechTop is really strong.. I had been participated 2 times in TechTop and got tremendous exposure and experience in Technology. As an innovator I suggest the students to participate in Maxim numbers to show their skills to the world. TechTop is definitely a best platform to perform.

Avinash Prabhakar, contestant of TechTop-2007&2008 is now the Chief Technology Officer of a start up company in Technopark called Artin Dynamics. (www.artindynamics.com)

I am delighted to be a part of techtop competition. It gave me exposure and made me think of projects which were not just theoretical but also practical with an objective of giving to the society. We were encouraged to implement our knowledge to create economical reliable and durable products for the society

Ankeeth Ved
Doing Masters at University of Illinois at Urbana Champaign,
(TechTop-2007 participant)

I am really grateful to the TechTop team who provided a platform to make us participate in one of the India's renowned technical event. Had a wonderful experience in showcasing our project to the outside world especially in front of the highly skilled professionals. It provided an environment for great interaction with people across India. TechTop is different from other events as it provides us to exhibit our work to public rather than just confining it to a presentation or a seminar.

Aswathy Prasad
MSc – Advanced Computer Science
The University of Sheffield, UK
(TechTop-2008 participant from Amritha)

Techtop 2009 is really a good initiative to fill the gap between industry and academic relationship. techtop 2009 was really helpful for the engineering students who are curious to apply their academic knowledge to solve the problems of Industry and society.

Rahul jain
B.tech-3rd year
branch-industrial biotechnology
sastra university, thanjavur.

Techtop is the unique competition which gives and promotes the innovative ideas and gives the excellence for the future technologies of the engineering students. Technopark provided the platform for the new talent in the technical field. I want to say to the new participants that "SEE the dream; because in the world anything has been done is done only by those peoples who saw the dreams."

Bhimashankar S. Pardeshi

Its was a wonderful opportunity to expose our ideas and to share our ideas and technologies".....had a very great experience at Technopark, Trivandrum.....Simply Super..

S.Raamakirtinan,
B.E final year computer science
and engineering at Kongu engineering
(Participant TechTop-2009)

Our team felt that TechTop is a great platform for innovation. One suggestion that I have to make the event better is to have some categories for the competition like Medicine/Healthcare, Infrastructure, Computers software/hardware/electronics, other, etc.

Kavya Vadlamani, MS-MIS '10
